

Construction & Forestry Equipment

DCUT-55

DVIB-38

Dayliff DCUT-55 is a rugged, high-performance petrol chain saw engineered for heavy-duty applications in forestry, farming, and property maintenance. Powered by a robust 2-stroke petrol engine, it delivers strong torque and steady cutting speed, making it ideal for felling trees, trimming branches, and cutting firewood.

Key Features;

- Heavy-duty construction for long service life.
- Ergonomic controls and balanced weight distribution for operator comfort.
- Easy-Start System for quick and effortless starting.
- Automatic Chain Lubrication to extend bar and chain life.
- Tool-Free Air Filter Access for convenient field maintenance.
- Chain Brake & Safety Guard for enhanced operator safety.

Dayliff DVIB-38 is a durable, petrol-powered concrete vibrator designed for reliable performance in demanding construction environments. Fitted with a high-efficiency 4-stroke petrol engine, it delivers powerful vibration to eliminate air pockets, ensuring superior compaction and stronger, longer-lasting concrete structures.

Key Features

- High-frequency vibration for superior concrete density.
- Rugged, frame-mounted design for stability and portability.
- 4-Stroke OHV Engine for dependable and fuel-efficient performance.
- Heavy-Duty Flexible Shaft for long service life under tough conditions.
- Claw-Type Quick Coupling System for fast shaft connection/disconnection and easy transport.

SPECIFICATIONS

Equipment Description	Chain Saw	Concrete Vibrator
Model	DCUT-55	DVIB-38
Engine Type	2-Stroke, Air-Cooled Petrol	4-Stroke, Air-Cooled Petrol
Displacement (CC)	49.6	196
Rated Power (HP)	3HP @ 8500rpm	6.5HP @ 3600rpm
Fuel Tank Capacity (L)	0.5	3.6
Bar Length	55cm (22")	N/A
Chain Pitch (")	0.325"	N/A
Chain Speed (m/s)	175	N/A
Flexible Shaft Length (m)	N/A	6
Vibrator Head Diameter (mm)	N/A	38
Vibration Frequency (VPM)	N/A	9800-12000
Dry Weight (kg)	5	22
Package Dimensions (LxWxH) mm	510 x 300 x 290	515x425x445
