KNAPSACK SPRAYER

Dayliff GN20 Knapsack Sprayer is an effective multi-purpose hand sprayer for the application of chemical and foliar sprays on plants, weeds and pathways in residential sites. The 20L tank is made of durable PE material with straps provided for back carrying. The tank is pressurized with a hand primed pump and the spray is applied with a valve controlled handheld arm with 3 different nozzle options provided giving different spray patterns. Units are supplied complete with all components for DIY assembly.

GARDEN HOSE SPRINKLERS

**GSM Multi
Jet Sprinkler**

**GSS Single
Jet Sprinkler**

Dayliff GS hand Garden Sprinklers are versatile hose sprinklers for various domestic applications including plant watering, car washing, patio washdown etc. Two options are available:-

GSS Single Jet with the spray being adjustable for range and diameter

GSM Multi Jet with eight different spray patterns available including flat, soaker, mist, jet, full, cone, shower and angle each selectable by twisting the spray head.

Spray heads are provided with a flow control valve in the handle and two clamp type connectors and a 3/4" threaded tap connector are included for hose connection. Connectors are available separately. Operating pressure ranges between 1 to 8 bar.

GARDEN HOSEPIPES

Dayliff GH Garden Hosepipes are strong and flexible hoses made of soft plastic reinforced with an internal web of nylon fibre for long life. They are suitable for all gardening and landscaping uses as well as cleaning and liquid transfer applications, particularly for use with Dayliff Garden Sprinklers.
